Hi, Mike –

Sorry. We've been busy with a few dockets closing around the same time.

I think we still have one that needs processing. The rest has been posted.

One caveat though: it's always difficult to know when/if paper comments are going to show up at some point just because of the nature of that medium and how it travels.

Many thanks!

Assem

**Subject:** Cadmium Aquatic Life Water Quality Criteria

Hi Assem,

I wanted to follow on Docket EPA-HQ-OW-2015-0753 (Cadmium Aquatic Life Water Quality Criteria) to check what the expected timeframe is for the upload of the remaining comments for public access. It currently looks like one of the eleven comments have been posted, and I assume the others are still undergoing review. I know it takes several days and the reason I am asking is that I have received a couple of external inquiries and I just need to provide them with a timeframe.

Thanks Assem!

Mike

**Subject:** RE: Cadmium Document Components

We are expecting the FR Notice for the cadmium draft criteria to be issued around Dec. 1<sup>st</sup> or 2<sup>nd</sup> and the associated documents will need to be held until then, so we are providing you with materials in advance of that date for your QA process. Please find attached the cadmium criteria document. The document is 508 compliant. We will send you two other documents that should be included in the docket later today.

Thank you,

Mike Elias

Hi, Mike –

Here is your new docket: OW-2015-0753

Once you start loading your supporting documents, please make sure that their status is set to metadata\_ready so our folks can work on them.

Many thanks!

Hi Assem,

I have attached the Docket Request Form for the Cadmium Aquatic Life Criteria. I also established an FDMS account. Please let me know if you need any additional information to establish the docket number and/or if you have any questions. Thanks again for your help on this process.
